PROFESSIONAL SUMMARY

Full-Stack Developer with 4+ years of experience building performant, accessible, and scalable web applications. Proven progression from frontend engineering into full-stack development, delivering robust web solutions using React, Next.js, TypeScript, JavaScript, and Node.js, with NestJS forming part of a modern backend stack. Experienced in REST API development, PostgreSQL, authentication, performance optimization, and AI/LLM API integrations. Brings strong technical leadership, cross-functional collaboration, and client communication skills.

WORK EXPERIENCE

SM Technology

Full-Stack Developer & Team Leader (Assistant Manager, Operations) | 2025 – Present

- Led cross-functional collaboration across engineering, AI research, and design teams to drive seamless full-stack delivery and align technical workflows.
- Managed client communication, requirements gathering, and strategic onboarding to ensure aligned expectations and high client satisfaction.
- Oversaw project deadline management and delivery assurance for complex web applications, ensuring high reliability and architectural standards.

Softsync

Full-Stack Developer | 2024 – 2025

- Engineered enterprise web applications in collaboration with UI/UX designers and backend teams, accelerating feature delivery cycles by 25%.
- Developed reusable component libraries using React, TypeScript, and Tailwind CSS, increasing design consistency and developer velocity.
- Implemented rigorous testing and code quality practices to maintain clean and maintainable codebases across client projects.

Freelance Projects

Frontend Developer | 2021 – 2024

- Directed full lifecycle web development for diverse international clients, delivering end-to-end web apps from initial architectural design to Vercel production deployments.
- Built modern full-stack web solutions utilizing Next.js, Node.js, REST APIs, and Tailwind CSS, achieving high accessibility and performance metrics.
- Integrated interactive animations via Motion for React and established automated CI/CD pipelines on Vercel.

CORE TECHNOLOGY

- Frontend:** React, Next.js, TypeScript, JavaScript, Redux, Tailwind CSS, ShadCN, Motion for React, GSAP, Figma
- Backend:** Node.js, NestJS, Express.js, REST APIs, GraphQL
- Database:** PostgreSQL, Redis, NoSQL, Drizzle ORM, Prisma
- AI:** LLM APIs, AI API Integration, Agentic Workflows
- DevOps:** Git, GitHub, Docker, Vercel, CI/CD
- Architecture:** API Integration, Authentication, Authorization, Component Architecture, Performance Optimization, Responsive Design, Web Security

SELECTED PROJECT EXPERIENCE

E-Commerce Platform

- Full-stack e-commerce app with secure auth, RBAC, catalog management, and admin workflows. Integrated payments, image storage, Drizzle ORM, and Vercel deployment.

Business & Operations Web Applications

- Developed custom full-stack web solutions across e-commerce, CRM, logistics, and project management domains, building data-driven user interfaces, REST APIs, authentication layers, and operational workflows.

AI-Integrated Web Applications

- Integrated LLM APIs and agentic developer tools into modern web applications, enhancing user interactions and incorporating AI-assisted workflows into production environments.

EDUCATION

Professional Training in Web & Software Development

Certifications / Independent Training | 2017 – Present

- Completed professional training and certifications in web development via freeCodeCamp, Udemy, YouTube, and independent platforms.

National University, Bangladesh

Bachelor of Business Administration (BBA) Studies

- Pursued BBA studies prior to transitioning into software engineering through dedicated self-learning and professional development.

LANGUAGES

- Bangla:** Native | **English:** Professional Working Proficiency
