WORK EXPERIENCE

Softsync • Frontend Developer

2024 – Present

- Collaborating with UI/UX designers and backend engineers to develop responsive and performant web applications.
- Building scalable React components with TypeScript and Tailwind CSS.
- Writing clean, maintainable code and ensuring design consistency across projects.

Freelance Projects • Frontend Developer

2020 – 2024

- Led full-cycle development of web apps, from planning and design to deployment and maintenance.
- Delivered solutions for clients using modern stacks such as Next.js, Node.js, and Tailwind CSS.
- Integrated animations with Motion for React and deployed apps via Vercel for global availability.

PROJECT SELECTION

E-Commerce Platform

A modern, scalable, and feature-rich e-commerce platform designed for optimal performance, elegant UX, and developer-grade extensibility.

🌐 **Live:** shop-ipsu.vercel.app

Tech Stack: Next.js 15 (App Router), Hono tRPC, Drizzle ORM, Neon Postgres, Tailwind CSS v4, Shadcn UI, TypeScript.

Key Features:

- Full-featured Product Catalog** with taxonomy-based navigation (departments, categories, subcategories).
- Cascading Filtering:** Dependent filters with real-time product updates based on attributes (color, size, etc).
- Multiple Theme Support:** Seamless light/dark mode switching across the entire UI.
- Authentication & Authorization:** Integrated using NextAuth.js v5 with role-based access control.
- Admin Dashboard:** Robust and reactive dashboard for managing products, categories, and orders.
- Reusable Component System:** Built using Shadcn UI and Tailwind v4 with custom variants and design tokens.
- Motion UX:** Integrated **motion for react** for page transitions, micro-interactions, and modal animations.
- Clean Architecture:** Modular, layered folder structure with domain-driven separation of concerns.
- Image Upload & Storage:** Optimized image upload pipeline for product galleries.
- Payment Integration:** Fully integrated checkout and payment flow (Stripe/SSLCommerz/etc.).
- SEO Optimized:** Dynamic metadata, OpenGraph, and sitemap generation.
- Deployment:** Hosted on **Vercel**, backed by **Neon Postgres**, ensuring edge performance and horizontal scaling.

SKILLS

Languages & Frameworks: TypeScript, JavaScript, React, Redux, Next.js, Node.js, Express.js

Styling & Design: Tailwind CSS, SCSS, ShadCN, Motion GSAP, Figma

Backend & APIs: REST APIs, GraphQL, Hono, Auth.js, Clerk, tRPC, Custom Auth

Databases: PostgreSQL, Redis, NoSQL, Drizzle ORM, Prisma

Tools: Git, Docker, Vercel, GitHub, CI/CD

Best Practices: Responsive Design, Component Architecture, Performance Optimization, SEO, Security

EDUCATION

Professional Training in Web & Software Development

2017 – Present

Institutions: freeCodeCamp, Udemy, YouTube, and others.

Completed certifications in **Web Development**.

Bachelor of Business Administration (BBA)

2014 – 2018

National University, Bangladesh

Developed a strong interest in tech during business studies and transitioned through self-learning.

LANGUAGE

Bangla, English
